1. Vision Statement

‘Creating an irresistible climate for achievement’

We challenge, support and encourage every student to **achieve their potential**.

- We believe **effort** and **dedication** lead to success and we **raise aspirations**.
- We **personalise our provision** to meet the needs of individuals.
- We enable our students to flourish as **confident learners and leaders** of our community.
- We create a culture where all stakeholders **feel valued, supported and proud**.

- We **work collaboratively** to improve outcomes for our students and support other schools to improve.

2. **General Principles:**

- It is recognised that schools have increasing access to a wide range of personal data about pupils, parents and staff, some of which we are legally required to gather and process in order to carry out our duties as a public authority. This may also be to support the development of pupils (educationally, socially and emotionally), to protect the pupils in our care and to facilitate the efficient running of the school.
- Data and records provide evidence for protecting the legal rights and interests of the school and provide evidence for demonstrating performance and accountability.
- Under the General Data Protection Regulations (GDPR), there are strict legal guidelines in place as to how data should be both 'controlled' and 'processed', which the school is fully aware of and complies with.
- These regulations apply to 'personal data', 'special categories of personal data' and personal data relating to 'criminal convictions and offences'.
- This policy applies to all data and records created, received or maintained by staff of the school in the course of carrying out its functions.

3. **Key Definitions:**

- **Records** are defined as all those documents which facilitate the business carried out by the school and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created or maintained in hard copy and/or electronically.
- **Personal data** is defined as any information relating to an identifiable person who can be directly or indirectly identified, including by reference to a unique indicator.
- **Special categories of personal data** (previously referred to as 'sensitive data') specifically refers to information held about an individual in the following categories:
 - race
 - ethnic origin
 - religion
 - genetics
 - biometrics
 - health

in addition, as this data, by its very nature could create more significant risks to a person's fundamental rights and freedoms, there are additional safeguards in place.

- **Data controllers** determine the purposes and means of processing personal data.
- **Data processors** are responsible for processing personal data on behalf of a controller.
- **Personal data breaches** are defined as a security incident that has affected the confidentiality, integrity or availability of personal data. A personal data breach takes place whenever any personal data is lost, destroyed, corrupted or disclosed; if someone accesses the data or passes it on without proper authorisation or if the data is made unavailable and this unavailability has a significant negative effect on individuals.
- **Subject Access Requests**¹ gives individuals the right to see a copy of the information an organisation holds about them. Also, see the Schools Subject Access Request Procedures, which can be found on the Schools Website, under Parents/information-governance.

4. **Requirements of the General Data Protection Regulations**

- Under the GDPR, the data protection principles (Article 5)²: set out the main responsibilities for organisations which require that personal data shall be
 - a) processed lawfully, fairly and in a transparent manner in relation to the individual
 - b) collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes

¹ [Guide to the General Data Protection Regulation \(GDPR\)](#), Right of Access, Page 59

² [Guide to the General Data Protection Regulation \(GDPR\)](#) Page 9

- c) adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed
- d) accurate and, where necessary, kept up to date with every reasonable step being taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay
