

Year 11 Revision and Exam support evening

Wednesday 23rd of January

Welcome

Our aims for this evening are to explain the following ...

What online resources are available to students?

Specific revision strategies (English, Maths & Science)

Health & well being and managing the exam period

Countdown from today

Thursday 7th of February – Friday 15th of February

Mock week 2

Monday 18th of February – Friday 22nd of February

Half term

Monday 25th of February

Teacher training day

Wednesday 27th of February

Year 11 parents evening

Monday 8th of April – Monday 22nd of April (Inclusive)

Easter holiday

Monday 13th of May – Wednesday 26th of June (Inclusive)

GCSE exam period

Therefore there are 110 days left until the GCSE exams begin for your child.

This is the time to really make the difference and work towards some fabulous results!

Action Plan for the students ...

Attend the Year 11 revision event on 23rd of January

Attend school every day, aim for 100% up until the GCSE exams.

Attend as many of the period 6 sessions as possible, at least 80% to be eligible for Prom!

If you haven't already made a revision timetable now, then do so as soon as possible!

Start your revision now!

Some questions for the students ...

Do you know your target grades?

How close were you to these grades in the November mocks?

What grades do you need for your post-16 plans?

What do **YOU need to do next?**

Allows students to plan and organise themselves for the GCSE exams.

A huge range of study resources for all of the different subjects at GCSE, past papers to practice and tools to create revision materials.

[Gojimo](#)

Gojimo

Gojimo Revision is the free app that helps you pass exams.

Access over 40,000 practice questions for free.

28 GCSE subjects (AQA, CCEA, Edexcel, OCR, WJEC)

A really good app to test subject knowledge & understanding

Pick your subject and your exam board, then take part in quizzes to test your knowledge. Not only do you get instant feedback, you're also given detailed explanations, so if you go wrong, you can work out why.

At the end of a quiz you're told how many you got right, how long you took and you can review your errors. The app will also track your progress over time so you can identify your best and worst topics for revision.

A free online learning platform which is very good for developing specific subject knowledge & understanding.

Many of our year 11 students are already using Seneca to revise for their different subjects. It's free to sign up to and covers all subjects for all relevant exam boards.

The Quizlet logo is displayed in white, bold, sans-serif font against a solid blue rectangular background.

Quizlet enables students to create their own revision flashcards, as well as to use sets created by others.

Teachers can also create sets to share with their students. When you access a set, there are four different modes in which you can use them: cards, learn, match and test.

memrise

Memrise is very good for learning specific vocabulary such as key words. It's therefore very useful for languages such as Spanish and French, but is being used by staff in History.

You can click on the optional “help me to remember this button”, which then allows you to select a “mem” – an image, essentially – that relates to that particular word and should, theoretically, help you remember it.

The whole way Memrise has been structured is based on knowledge of how the brain works.

BBC Bitesize has been around now for a few years, but in my opinion is still one of the best revision websites around.

It uses a mixture of text, videos and quizzes to develop and test knowledge and understanding.

It covers all of the different subjects and exam boards and includes relevant real life examples throughout.

It's obviously really important for the students to get in to good habits with plenty of sleep, exercise, spending time with friends and families and all of the normal things that young people do as part of their daily life.

Getting the balance between study and fun is crucial!

If you are revising properly, and maximising your time in lessons, it's probably going to be OK. If you aren't it probably isn't.
